- 

## PROJECTS/OTHER EXPERIENCE

### Software Projects:

Feb 2020-Present

- GitHub: <https://github.com/aloten>
- MERN stack Wine Cellar App: <https://terracotta-v1.herokuapp.com/>
- Personal Website: <https://aloten.github.io> – built from scratch using HTML, CSS, JavaScript—hosts my portfolio
- Web Scraper and Data Analytics Map – I wrote one Python script to scrape wine-searcher.com for wine bottle data, and another Python script to interactively map the data using Bokeh library (interactive on my website)
- Interactive Sudoku Puzzle/Solver – Allows a user to play a sudoku game and solves a generated board using an algorithm I wrote in JavaScript (interactive on my website)

### Bowdoin Dining Services Brunswick, ME

2018-2019

*Student Manager*

- Nominated for Student Employee of the Year out (24 nominations out of 1300 student workers)
  - Managed teams of 4-10 students in the dining hall and kitchen for 20 hours/week during school year (6am-10am)
- 

## EDUCATION
